collection by unidrain®

”My approach to this design is based on a wish to improve and reframe the existing”

Kenneth Waaben, Designer

The Reframe Collection by Unidrain is an exclusive and unique series of bathroom accessories grounded in Scandinavian design and quality. Each product is designed with innovative, unique and intelligent features to improve functionality.

The Reframe Collection is reframing the existing, bringing new functionality into bathroom accessories. Five different colour options give you the possibility of matching all metal details, conveying a subtle feeling of luxury.

SOAP SHELF AND SHOWER WIPER

A surprisingly clever creation in the shower! Besides creating a place for your shower essentials, the shelf also provides a fixed home for the shower wiper. Hidden magnets in the wall mount and shower wiper ensure a secure and discrete placement, keeping the wiper handy and easy to access at all times. The wiper consists of two parts; a reinforced steel frame and a high quality silicone blade. This construction ensures an effective and even cleaning of all surfaces.

SHOWER WIPER

Separate shower wiper and wall mount with integrated magnets to keep the wiper in place. The wiper consists of two parts; a reinforced steel frame and a high quality silicone blade. This construction ensures an effective and even cleaning of all surfaces. Built in 'bumpers' on all sides protect your tiles from scratches and marks.

CORNER SOAP SHELF

Soap shelf in a reinforced steel plate to secure stability. Discreet grooves drain water away and an anti-slip barrier keeps shower essentials from sliding when the shelf is wet. The innovative wall mount can be adapted to corners, which are not exactly 90°.

TOWEL BAR

Make your shower a little more Zen. The towel bar has a solid and unique mounting design and keeps your bathroom in harmony - even your most fluffy towels will stay in place, all the time.

TOWEL HOOK

Elegant hooks keep your towels in reach at all times. The perfect shape of these hooks will keep your towels from slipping.

TOILET BRUSH

Having a toilet brush has never been more stylish and hygienic. Besides the sleek design, you will be pleased with the anti-drip function, which reduces dripping and the inner plastic tube with drainage collar to prevent germs outside the toilet brush and in between the inner and outer container. You will also love the external handle which allows you to empty the container without interfering with germs. The brush head is replaceable and can easily be exchanged. Choose between a wall mounted and floor standing version.

TOILET PAPER HOLDER
SPARE TOILET PAPER HOLDER

Keep your toilet paper nice and centered with the innovative paper holder. The holder is reversible for your convenience and an integrated magnetic part will keep the toilet roll in place and optimise its friction. The spare toilet paper holder has a separate rubber part, that centers the toilet roll independent of the various inner sizes, that toilet rolls come in.

HIGHLINE COLOUR - DRAIN UNIT SERIES

The Reframe Collection is designed to match the exclusive Unidrain floor drain series. The award winning HighLine series has recently launched in the same colours as the accessory line.

Our colours have been meticulously chosen and matched precisely with the colours of other manufacturers, giving you even more options when choosing and designing the perfect look for the bathroom – whether you are going for the warm welcoming look, or a more streamlined modern feeling. All you have to do is choose your favorite colour.

All accessories and HighLine panels come in 5 colours:
copper, brass, brushed stainless steel, hand polished stainless steel and black.

TOILET PAPER HOLDER
191 (L) x 34 (H) mm
