

Kit Includes

32 Litres Per Minute Linear Drain 1½" Connection 50mm Water Seal Tile Insert / Panel / Tile Base 330mm Factory Fitted Membrane PVD Coated Colours

Before installing

Ensure the drain is suitable for your requirements and you have all components to complete the installation

Important

Read all the pages of these instructions fully and thoroughly before you commence installation and keep in a safe location for future reference.

Plumbing

All plumbing works should be carried out by a fully qualified professional plumber.

Sub Floor

It is important that SharpDrain is installed onto a strong, level, stable floor. Movement could affect the performance of your wetroom.

Checklist/Safety Notes

- Check you have all components before installation. If you do not have all the components, do not install and contact your retailer.
- Check all the contents for damage. If any parts are damaged, do not install and contact your retailer.
- SharpDrain must be installed flat and horizontal.
- Check the location of pipes, electrical cables and all other services prior to drilling, cutting and screwing into walls, ceilings and floors.
- Ensure your tools for installation are fit for purpose and follow manufacturer's instructions provided with the tools.
- The area / room must be clean, dust free with first fix plumbing and electrics in place prior to applying the vinyl. Always ensure that the Installation area is kept safe, especially from children and pets.
- Safety goggles and masks should be worn at all times.

Liability

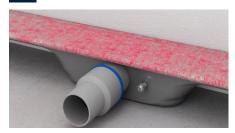

The Manufacturer will not accept any liability for failure if SharpDrain has been installed incorrectly and with disregard to the instructions.
