

PRODUCT SHEET

Water trap, Self-cleaning | 1820.0080 | Line drain

1820.0080

Self-cleaning trap with a capacity of 0.4-0.6 l/s depending on the outlet unit it is installed in. Meets the requirements for capacity and self-cleaning according to EN1253 (the pan-European standard for floor drains) and is VA approved. Suitable for most outlet units, including older models. Can replace water trap 1820.0010 and 1820.0040, if they are installed at the top of the drain unit. A hook to lift the water trap up from the outlet unit and a packet of silicone lubricant are included

Cannot be used with 1417.0050 or 1418.0050 low profile outlets.

FLOW RATES

The 1820.0080 trap has been tested to provide the below flow rates depending on the outlet it is installed with.

1411.0050

33 Litres per min

1411.0075

31 Litres per min

1415.0050

35 Litres per min

1416.0050

28 Litres per min

1412.0075

36 Litres per min

If these flow rates are not suitable for your requirements, contact WM for higher flow rate options.
